\*Data found in “Student Retention by Graduation Year” and “Positive Placement by Graduation Year” use different ranges of academic cycles and conferral dates. Differences in total numbers surveyed may indicate that a Summer conferral due to field placement internships extending into the summer term, etc.

<sup>1</sup> Knowledge rate includes responses to online surveys and online research. The term knowledge rate is defined by the National Association of Colleges and Employers in the First Destination Survey Standards and Protocols. Knowledge rate includes responses to online surveys and online research. The term knowledge rate is defined by the National Association of Colleges and Employers in the First Destination Survey Standards and Protocols. First Destination surveys of graduate school alumni are completed by the Career Resource Center in October – December of each year. The “Class” year includes those whose degrees were conferred after May of the previous year through May of the class year. For example, the Class of 2022 includes Sept. 2021, Jan. 2022, and May 2022 conferrals. All “commencement eligible” graduates are surveyed.
