Email

If you are a student researcher, has your supervising faculty read and approved this request for submission?

☐ Yes ☐ No

If No, please have your supervisor review and provide their approval prior to submitting this request.

Investigator(s) Status

Indicate all that apply.

☐ Faculty ☐ Staff ☐ Graduate Student(s) ☐ Undergraduate

Title of the Project

Proposed Project Dates

Start Date

End Date

Type of Project

☐ Faculty Research ☐ Thesis / Dissertation ☐ Independent Study ☐ Other (describe below)

If Other, please describe:

Section I: Foundational Project Information

1.1 Purpose of the Study

Briefly describe the purpose of the study.

1.2 Participants

Provide the number of adults, and the number and ages of minors.

Number of Adults

Number of Minors

Age Range of Minors

1.3 Project Design

Briefly describe the project design (e.g., experimental, ethnographic, arts-based research, etc.).

1.4 Study Methods

Indicate whether the study involves any of the following. Select all that apply.

- | | | |
|--|---|---|
| ☐ Case Studies | ☐ Experimental Intervention | ☐ Task Performance / Artmaking |
| ☐ Educational Tests | ☐ Standard Psychological Tests | ☐ Survey or Questionnaire |
| ☐ Interviews | ☐ Observations | ☐ Analysis of Existing Data |

1.5 Recruitment

How will subjects be recruited?

1.6 Risks and Safeguards

Do subjects risk any stress or harm by participating in this research? If so, why are they necessary? How will they be assessed? What safeguards minimize the risks?

It is not necessary to eliminate all risks, only to be clear and explicit about what the risks may be. The IRB is alert to any tendency to suggest that risks are lower than they may be.
